

The background of the image is a photograph of the Antelope Valley California Poplar Trees. The rock formations are smooth, undulating, and layered, creating a complex, organic pattern. The colors range from deep purples and blues in the shadows to bright yellows and oranges where the light hits, suggesting a sunset or sunrise scene. The text is centered over this background.

## Correspondence Course at Home

Study the Bible through mailed correspondence courses you can complete in your own home. You won't be alone as you study because you will be assigned a study helper. A Bible study helper is a Christian friend who is available to help you understand the Bible as you take the Bible course.
